contributors' guide:

https://ebee_smart.gitlab.io/documentation/product-docs/editorial/contribution-guide

General guidelines

- Anyone can contribute changes
- Coordinate structural changes (WHERE something belongs) with the lead writer (Zenahr). **this includes adding new pages to existing categories**
- Correcting obvious flaws and outdated info can be performed without coordination (a heads-up is welcome)
- Currently, pushing to master is fine. MRs are preferred

Method 1 — "edit this page"

When?

- Changes are minimal and one-off, e.g., editing existing pages

Method 1 — "edit this page"

How?

1. Browse to the [internal site](#)
2. At the bottom of the page, click `Edit this page`
3. Make changes through the Gitlab web interface
4. Commit your changes with the prefix `(edit)`

Version: 5.32

Home

Welcome to the Bender Charge Controller Docs!

Current state

This documentation is a work-in-progress and subject to heavy change, content-wise and structurally.

Scope

The ebee HUB focuses on the software-side of the bender Charge Controller product family.

Is this relevant to you?

The documentation here is relevant to you if you're

- A **prospective customer** interested in one of the products mentioned below
- A **customer** working with one of the following products (any variant):
 - CC613
 - CC612
 - ICC1324
 - ICC1622
 - ICC1612

Edit Lock Replace Delete

Open in Web IDE
Quickly and easily edit multiple files in your project.

Edit single file
Edit this file only.

Open in Gitpod
Launch a ready-to-code development environment for your project.

Your workspaces
A workspace is a virtual sandbox environment for your code in GitLab. You can create a workspace for a public project. To set up this feature, contact your administrator.

Method 2 — Cloning the repo

When?

- Significant changes, e.g., creating new pages

How?

1. Clone the repo
2. Check the README in the project root for further instructions
3. Check [the contributors' guide](#)

Thanks!

Feel free to direct any questions to the lead writer (Zenahr).
